Do You Receive Federal Benefits by Paper Check?

By March 1, 2013, the federal government is mandating that recipients of paper, federal benefit checks start receiving their funds electronically. You can receive your payment by signing up for direct deposit to your New Carlisle Federal checking or savings account.

Who:

People who get Social Security, VA, Supplemental Security Income (SSI), Railroad Retirement Board, Department of Labor (Black Lung) and Office of Personnel Management benefit checks.

What:

All federal benefit payments will be electronic by March 1, 2013. If you are applying for federal benefit payments, you must choose an electronic payment option from the beginning. If you are currently getting benefit checks, you must switch to an electronic payment option by March 1, 2013.

The move to all-electronic federal benefit payments provides significant savings to American taxpayers who will no longer incur the \$120 million price tag associated with paper checks.

Why:

Electronic payments are safe, easy ways to get federal benefit payments. They eliminate the risk of stolen checks, help protect you from financial crime and provide you more control over your money. Electronic payments give you immediate access to your funds from virtually anywhere. Problems with electronic payments are fewer and measurably easier to track and resolve than problems with mailed checks.

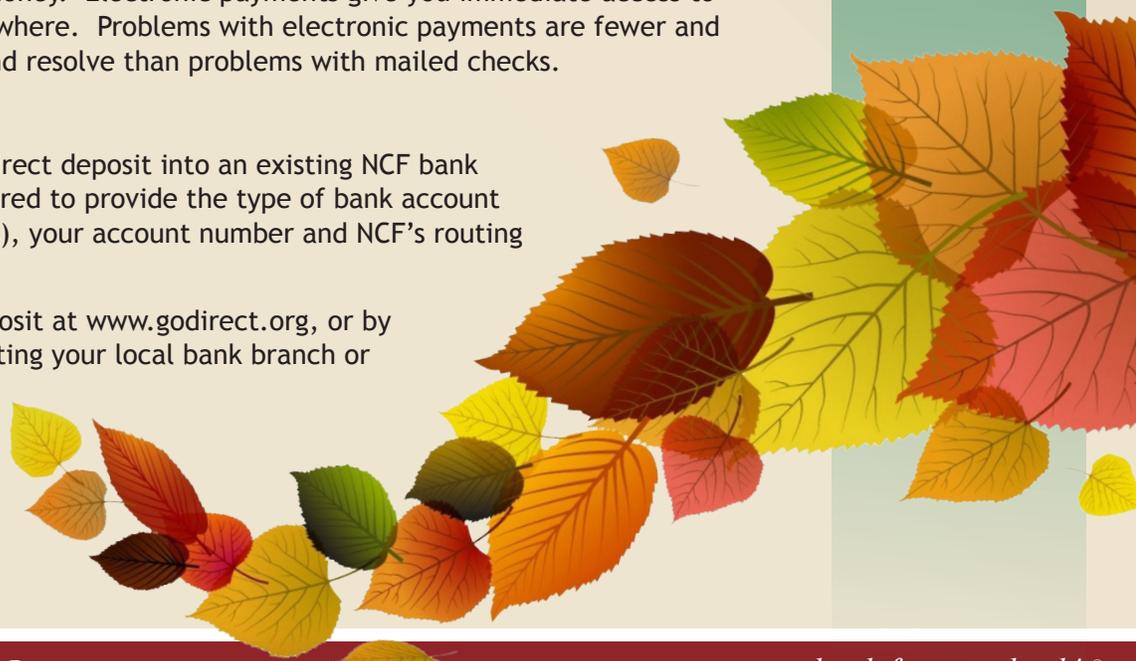

How:

To get benefit payments by direct deposit into an existing NCF bank account, you should be prepared to provide the type of bank account you have (checking or savings), your account number and NCF's routing number (242272463).

You can sign up for direct deposit at www.godirect.org, or by calling (800) 333-1795, or visiting your local bank branch or federal benefit agency office.

Get to Know... Heather Navarre

Heather Navarre has been with New Carlisle Federal since 2007. She began as a fulltime teller in our Tipp City Office, became the Head Teller at that office in 2009 and then moved to the New Carlisle Office as the Assistant Manager. Recently, she was promoted to Office Administrator of the New Carlisle Office.

Heather enjoys spending time with her dad refinishing, designing and building furniture. A recent project they completed was a wine rack for her kitchen. One of her favorite childhood memories is a weekend get-away to the Kentucky Horse Park for getting straight A's in the fifth grade. Working with money is nothing new to Heather as she was the class treasurer when she attended Springfield-Clark JVS.

She resides in New Carlisle with her husband Scott and their two cats, Paisley and Parker and their Australian shepherd, Lucky.

5 Tips for Test Driving a Used Car

It is essential to test drive a used car. Buying a used vehicle demands thorough assessment and screening to make certain you are getting a car that works for you for many years to come. Here are five tips to help you choose your next used car.

1. Investigate thoroughly the make and model you are interested in prior to a test drive. Doing your research beforehand will assist you in knowing what to expect from the vehicle.
2. Don't hurry. Take time to focus on the automobile. Tell the sales person about any doubts about the car you may have following the test drive.
3. If possible, take a mechanic along for the test drive or make arrangements to drive the car to a mechanic during the test drive. He or she can offer his or her advice on the condition of the car and the expected expense for any repairs.
4. Perform the test drive on different road surfaces. If purchasing the car from a dealer, inquire if it is okay to take the vehicle off the regular course before you actually take the car.
5. Be sure to test drive two to three cars at a minimum.
